

SUCCESSFUL ISSUE OF XTPL SHARES

More than PLN 10 million was credited to the XTPL's account as a result of the recent issue of shares. In the capital increase carried out in the private subscription mode both Polish individual investors and Western institutional investors took part. The latter acquired nearly a half of the new securities. The company intends to allocate the funds for the strategic strengthening in the area of commercialization in the area of open defect repair solution and for further development of its patent cloud.
