

XTPL SIGNS AN AGREEMENT WITH ANOTHER PLAYER FROM THE DISPLAY MARKET

- XTPL has just signed Technology Evaluation Agreement with Suzhou Cowin Laser Technology Co Ltd.
- Cowin looks to implement open defect repair technology dedicated for new generation displays
- Proof of concept stage realized by both entities is to confirm the parameters of XTPL technology and to assess the possibility of implementing it in the Chinese partner's production processes
- Cowin is a supplier for leading players in FPD sector, such as BOE (leader of the global display market, which is working on an independent proof of concept project with XTPL); CSOT (display manufacturer based in China, producing LCD panels and developing OLED technology) and Tianma (global display manufacturer operating for over three decades, producing modern LCD displays and new display lines using the AM-OLED technology)
