

ESPI Current Report

Number: 2/2021
Date: 24 February 2021
Company: XTPL S.A., a joint stock company with its registered office in Wrocław

Topic:	XTPL ink reordered by the same customer
---------------	--

Legal basis: Article 17(1) MAR – inside information.

Contents of the Report: In reference to Current Reports nos. 9/2020, 10/2020 and 11/2020, the Management Board of XTPL S.A. ("Company", "Issuer"), advises that today the Issuer has received another order for the purchase of CL85 nanoink based on silver nanoparticles – which is used e.g. for applications in the LIFT (Laser Induced Forward Transfer) technology – from a Western European research center conducting research in the nanotechnology sector.

In the opinion of the Company's Management Board, the fact that the buyer made another order for the nanoink is a confirmation that the product is of high quality and meets the customer's requirements.

The Issuer accepted the order, which means that a sales contract was formed.

The commercial sale of the nanoink to the customer was deemed inside information by the Company's Management Board due to the specific nature of the Issuer's business and its understanding by the Company's shareholders and investors.

At the same time, the key value of the order is that it confirms the commercialization potential of the Company's proprietary technologies. Acceptance of the product by market buyers, the possibility of obtaining credentials, and further development of nanoink sales will have a positive influence on the Issuer's operations, cash flows and future financial performance.

Signatures of the Company's representatives:

Jacek Olszański
MANAGEMENT BOARD MEMBER
