

ESPI Current Report

Number: 8/2022
Date: 22 March 2022
Company: XTPL S.A., a joint stock company with its registered office in Wrocław

Topic: **Agreement signed by the Issuer with the University of Brescia relating to strategic cooperation in the field of new generation bioelectronics**

Legal basis: Article 17(1) MAR – inside information

Contents of the Report: The Management Board of XTPL S.A. (“Company”, “Issuer”) reports that on 22 March 2022 it signed a strategic cooperation agreement with the Department of Information Engineering (Dipartimento di Ingegneria dell’Informazione – DII) from the University of Brescia in Italy (UniBs). The purpose of the cooperation is to work together on development of new generation organic and biodegradable biological sensors using the Company-developed electronics printing technology.

As part of the agreement, the Company will ensure technological and expert support relating to its proprietary technology and the Delta Printing System. On the other hand, the DII will provide XTPL with information on the results of its work and outcomes of microproduction of printed biosensors integrated with 3D, adaptable, and flexible substrates. The information will be based on feedback received from industry partners. In addition, results of the research will be published in publicly available scientific articles and presented at the most important international scientific conferences.

The Management Board has decided that the start of cooperation with the DII is inside information due to its significant value for the Company’s development, stemming from exploration of a new application field, i.e. the biosensor industry. Application of the Company’s technology in work on next-generation biological sensors and the popularization of these solutions by the DII in scientific and industrial communities may have a significant impact on the Issuer’s future income position.

Accordingly, for the reasons described above, in the Management Board’s opinion the information disclosed in this current report meets the criteria of inside information within the meaning of Article 7(1) MAR.

Signatures of the Company’s representatives:

Jacek Olszański
MANAGEMENT BOARD MEMBER
