

## ESPI Current Report

**Number:** 27/2022  
**Date of preparation:** 3 August 2022  
**Company:** XTPL S.A., a joint stock company with its registered office in Wrocław

**Title:** Sale of the Delta Printing System to China

**Legal basis:** Article 17(1) MAR – inside information

**Contents of the Report:** The Management Board of XTPL S.A. (the “Issuer”, “Company”) reports that on 3 August 2022 the Company confirmed an order from Yi Xin (HK) Technology Co., Ltd based in China (“Yi Xin”, “Distributor”) for delivery of the Delta Printing System device. Yi Xin is a distributor of the Company’s technological solutions. (Current Report No. 4/2021 of 15 April 2021). The Issuer accepted the Distributor’s order, which means that a sales contract was formed. The Company will deliver and commission the device in the second half of 2022.

The end buyer of the device will be a leading Chinese R&D center based in Beijing [“End Client”], which placed its order following the demonstration and tests of the XTPL technology. The Delta Printing System will be used by the End Client for work on advanced integration of semiconductor components in a new class of More-than-Moore (MtM) devices. MtM is a new area of micro and nanotechnology that goes beyond the boundaries of conventional semiconductor technologies and applications.

The Management Board has decided that the conclusion of the agreement for the sale of the Delta Printing System is inside information as it means opening a new geographic market with a significant commercialization potential. The revenue from the order for the device will have a positive impact on XTPL’s financial performance in 2022.

Accordingly, for the reasons described above, in the Management Board’s opinion the information disclosed in this current report meets the criteria of inside information within the meaning of Article 7(1) MAR.
