

ESPI Current Report

Number: 29/2022
Date of preparation: 16 September 2022
Company: XTPL S.A., a joint stock company with its registered office in Wrocław

Title:

Filing a patent application

Legal basis: Article 17(1) MAR – inside information

Contents of the Report:

The Management Board of XTPL S.A. ("Issuer", "Company", "XTPL") hereby announces that on September 16th, 2022, the Issuer filed a patent application with the United States Patent and Trademark Office (USPTO) relating to the XTPL-developed technological solution of printing of advanced three-dimensional electronic connections with high packing density.

The Issuer's Management Board has decided that the submission of the said patent application is inside information, as in the case of an entity operating in the deep-tech sector, effective protection by the Company of its intellectual and industrial property, a factor which influences the Company value, is one of the elements that investors may take into account when making decisions about the Issuer's financial instruments.

In the opinion of the Company's Management Board, ensuring an appropriate level of security and extensive patent protection (both in the form of obtained patents and submitted patent applications) is a significant competitive advantage for the Issuer and may contribute to ensuring an appropriate bargaining position when negotiating commercial contracts. The Company's portfolio currently includes 25 patent applications and a total of 3 patents granted.

Accordingly, in the Management Board's opinion, the information on submission of the patent application meets the criteria of inside information within the meaning of Article 7(1) MAR.

Signatures of Company's representatives:

Jacek Olszański
MANAGEMENT BOARD MEMBER
