

## ESPI Current Report

**Number:** 39/2022  
**Date of preparation:** 22 December 2022  
**Company:** XTPL S.A., a joint stock company with its registered office in Wrocław

### Title:

**Delta Printing System sold to Harbin Institute of Technology in Harbin, China**

**Legal basis:** Article 17(1) MAR – inside information

### Contents of the Report:

The Management Board of XTPL S.A. (the “Issuer”, “Company”, “XTPL”) reports that on 22 December 2022 the Company confirmed another order from Yi Xin (HK) Technology Co., Ltd based in China (“Yi Xin”, “Distributor”) for delivery of the Delta Printing System device. Yi Xin is a distributor of the Company’s technological solutions. (Current Report No. 4/2021 of 15 April 2021). The Issuer accepted the Distributor’s order, which means that a sales contract was formed. The Company will deliver and commission the device in the second half of 2023.

The end buyer of the device will be a leading Chinese R&D center Harbin Institute of Technology based in Harbin (“End Client”), which placed its order following the demonstration and tests of the XTPL technology. The Delta Printing System will be used by the End Client for work on advanced printing of connections in integrated circuits of flexible electronics. The unique properties of the ultra-precise deposition (UPD) technology will ensure integration of microelectronics using highly conductive connections that can be deformed for optimum adaptation to flexible substrates used in flexible electronics (such as PET foil).

This is a third transaction to sell the Delta Printing System in the Chinese market. All transactions were completed this year and in cooperation with the Distributor. The revenue from the most recent order for the device will have a positive impact on XTPL’s financial performance in 2023.

Accordingly, for the reasons described above, in the Management Board’s opinion the information disclosed in this current report meets the criteria of inside information within the meaning of Article 7(1) MAR.
