

ESPI Current Report

Number: 40/2022
Date of preparation: 27 December 2022
Company: XTPL S.A., a joint stock company with its registered office in Wrocław

Title:

**Delta Printing System sold to Tianjin University
in Tianjin, China**

Legal basis: Article 17(1) MAR – inside information

Contents of the Report:

The Management Board of XTPL S.A. (the “Issuer”, “Company”, “XTPL”) reports that on 27 December 2022 the Company confirmed another order from Yi Xin (HK) Technology Co., Ltd based in China (“Yi Xin”, “Distributor”) for delivery of the Delta Printing System device. Yi Xin is a distributor of the Company’s technological solutions. (Current Report No. 4/2021 of 15 April 2021). The Issuer accepted the Distributor’s order, which means that a sales contract was formed. The Company will deliver and commission the device in the second half of 2023.

The end buyer of the device will be a leading Chinese R&D center Tianjin University (School of Precision Instrument and Opto-Electronics Engineering) based in Tianjin, China (“End Client”), which placed its order following the demonstration and tests of the XTPL technology. The Delta Printing System will be used by the End Client in the field of flexible electronics, wearables and sensors. The unique properties of the XTPL additive method will allow printing of flexible electrically conductive connections used to integrate microelectronics on flexible substrates.

This is a fourth transaction to sell the Delta Printing System in the Chinese market. All transactions were completed this year and in cooperation with the Distributor. The revenue from the most recent order for the device will have a positive impact on XTPL’s financial performance in 2023.

Accordingly, for the reasons described above, in the Management Board’s opinion the information disclosed in this current report meets the criteria of inside information within the meaning of Article 7(1) MAR.
