

ESPI Current Report

Number: 40/2023
Date of preparation: 27 July 2023
Company: XTPL S.A., a joint stock company with its registered office in Wrocław

Title:

Patent approval by US Patent and Trademark Office

Legal basis: Article 17(1) MAR – inside information

Contents of the Report:

The Management Board of XTPL (“Issuer”, “Company”, “XTPL”) hereby reports that on July 26th, 2023 it received information about the approval of a patent by the United States Patent and Trademark Office. The patent was granted in response to the patent application “Method of estimating a line width of a nanoparticle line formed using a capillary tube, and related methods”.

The application procedure for this patent was initiated on June 8th, 2020. This is also the date when patent protection started for the invention.

The final formal requirement for obtaining the patent is to pay the patent fee by October 17th, 2023. Should the requirement not be met, the Company will communicate this in a separate current report.

The Company's portfolio currently includes 26 patent applications and a total of 8 patents granted.

The patent protection will increase the value of the potential commercialization of the Company's technology with respect to the Issuer's technological solutions for the next generation electronics market. The reported event confirms continued delivery of the Company's strategy of building a patent cloud for its proprietary technology and products, which will contribute to building the Issuer's credibility among potential industrial clients.

In view of the above, and considering the confirmation of uniqueness of the Company's technological solutions, and then the outlook for the Issuer's perception by investors, the Issuer's Management Board has decided that the conditional decision to grant the patent to the Company should be deemed inside information. For this reason, in the opinion of the Management Board, the information meets the criteria set out in Article 7(1) of the MAR.
