

Sale of Delta Printing System device to Hamburg Technical University in Germany

The Management Board of XTPL S.A. [“Issuer”, “Company”, “XTPL”] announces that on November 27, 2023 Company has confirmed the order placed by the German Research Community - Deutsche Forschungsgemeinschaft [“DFG”, “Fund”] for the delivery of a Delta Printing System device to the Hamburg University of Technology [“TUHH”, “User”]. The Issuer has accepted the order placed by DFG, which means to enter into a sales agreement. The Company will deliver and install the device in 2024.

The Delta Printing System device ordered by DFG as part of the research project will be used by researchers at TUHH's Institute of Microsystems Technology for work related to a new generation of advanced electromechanical microsystems. The team of scientists has many years of experience in research in medical engineering, microsensor technology and life science.

The Management Board considered the conclusion of the agreement to sell the Delta Printing System device as confidential information due to its broad target application in areas with significant commercialization potential. The revenue generated from the device order will have a positive impact on XTPL S.A.'s financial results achieved in 2024.

For the reasons described above, the information provided in this current report, in the opinion of the Issuer's Management Board, meets the criteria for confidential information within the meaning of Article 7(1).
