

Sale of Delta Printing System equipment to an industrial customer in California, USA

The Management Board of XTPL S.A. ["Issuer", "Company", "XTPL"] announces that on 29 March 2024, the Company confirmed an order placed by a new industrial customer based in California, USA ["Customer"] for the delivery of a Delta Printing System ["DPS"] device. The DPS device will be used for microassembly work in integrated microelectronic devices.

This is the fourth sale of the DPS device in the US - the previous buyers are a Nasdaq-listed Big Five global ICT company (CR No. 32/2022 dated 28 September 2022), Northeastern University in Boston (CR No. 28/2023 dated 22 June 2023) and Ontos Equipment System INC (CR No. 61/2023 dated 18 December 2023). At the same time, this is the first transaction concluded as a result of the activities of the subsidiary XTPL Inc. based in Boston, USA ["XTPL Inc."], which will also handle the transaction operationally. The opening of XTPL Inc.'s Boston office is part of the Company's strategy adopted in November 2023 (CR No. 54/2023 dated 22 November 2023).

Revenues generated from the current device order will have a positive impact on XTPL S.A.'s financial results achieved in 2024.

The Issuer's Management Board considered the sale of the DPS device to a significant market to be confidential information, as its realization may have a significant impact on the Issuer's future revenue situation, the popularization of the Company's technological solutions, as well as the perspective of investors' perception of the Issuer.
