

## First Sale of Industrial Printing Module to a Partner in China. The printing module will be delivered to one of the key manufacturers of equipment for the modern display industry in the Chinese market.

The Management Board of XTPL S.A. ["Issuer", "Company", "XTPL"] informs that on the 24th of April 2024, it confirmed the acceptance of an order for the delivery of a printing module for industrial integration. The direct purchaser is Yi Xin (HK) Technology Co., Ltd based in China ["Yi Xin", "Distributor"], which provides distribution services of XTPL S.A.'s technological solutions (RB 4/2021 dated April 15, 2021). The final buyer of the device will be a leading manufacturer of testing and repair equipment used on production lines for modern Flat Panel Displays (FPD) in the Chinese market ["Partner", "End Customer"]. The Partner's customers are leading manufacturers of modern FPD displays in the Chinese market.

XTPL S.A., a joint stock company with its registered office in Wrocław

Legal basis:  
Article 17(1) MAR -  
confidential information

The Partner's decision to purchase the industrial printing module starts the construction of a prototype industrial device for use in repairing modern displays (FPD). The relationship with the Partner has been ongoing since November 2023 and is the result of efforts aimed at increasing the recognition of XTPL's technology and solutions in the Chinese market by Yi Xin. In collaboration with the Company, the Partner conducted a technological evaluation process of the Company's solution that lasted about 5 months. Upon achieving the expected results by the End Customer, the Partner decided to purchase the printing module.

Revenues from the sale under this order will be recognized by the end of the current year, and the delivery of the module for industrial integration is planned within 3-5 months.

The Issuer's Management Board has deemed the commencement of the order for the delivery of the printing module for industrial integration as confidential information due to achieving a key level of technology evaluation of potential, significant importance for the future development of the Company. The purchase order opens another stage of close cooperation between the Company and the Partner, ultimately aimed at developing and implementing industrial devices on production lines at a leading manufacturer of displays in the Chinese market. The cooperation also confirms the possibility of acquiring projects through Distributors aimed at industrial implementations of the Company's technological solutions. The sale of the printing module confirms the attractiveness of the technological solution offered by the Company in the Chinese market and the further commercialization potential of XTPL technology within the business line of printing modules for industrial integration.

Accordingly, in the opinion of the Issuer's Management Board, the above information meets the criteria of inside information within the meaning of Article 7(1) MAR.
