Under the signed Agreement, the Distributor will advertise and sell XTPL's solutions from the High-Performance Materials (HPM) business line in France. The cooperation is intended to support XTPL in opening new applications for its technologies and products in technology corporations, research and development centers and academic units, and will focus on introducing solutions in the electronics, semiconductor, and advanced PCB fields.

CDS ELECTRONIQUE is a renowned expert company in the French market providing solutions related to additive technology and high-performance materials used in electronics manufacturing. With its rich technological background built on thirty years of team experience, CDS ELECTRONIQUE has become a trusted partner for numerous French organizations operating in the electronics sector.

The Issuer's Management Board considered the fact that the Distribution Agreement in question was concluded for a significant market to be confidential information, as its implementation may have a significant impact on the Issuer's future revenue situation, the popularization of the Company's technological solutions, as well as the prospect of investors' perception of the Issuer. That is a step enabling even better fulfillment of XTPL customers' needs on the European market.

In view of the above, in the opinion of the Management Board, the information on the conclusion of the Agreement meets the criteria indicated in Article 7(1) of the MAR Regulation
