

## ESPI Current Report

**Number:** 11/2020  
**Date:** 31 March 2020  
**Company:** XTPL S.A., a joint stock company with its registered office in Wrocław

**Topic:** Execution of the third order for the supply of nano-ink

**Legal basis:** Article 17(1) MAR – inside information

**Contents of the Report:** The Management Board of XTPL S.A. (“Company”, “Issuer”) informs about the execution of the next (third) order for the supply of nano-ink. Delivery is carried out for a new client from Asia which is operating on the display market.

The Management Board of the Company considered the fact of commercial sale of the nano-ink to a third client as inside information, because in the opinion of the Management Board it constitutes a confirmation of interest in the Issuer's technology by another client and transition to the next, more advanced phase of business relations with the abovementioned counterparty.

The amount of revenue from delivery is insignificant from the perspective of the potential cooperation with the client. However, the mere fact of the next commercial order is significant from the Company's perspective and at the same time confirms the possibility to start cooperation with the abovementioned client as well as to enter the market in the client's industry.

At the same time, the Issuer informs that due to the fact that it is the third event of a similar nature, confirming the transition to a further phase of business relations with another client and thus a higher probability of commercialization of the technology developed by the Company, in the event of any potential subsequent similar events, i.e. receipt of nano-ink orders from new clients, the Management Board may assess such a single event as not constituting inside information and therefore may not inform about it in the form of a current report.

### Signatures of the Company's representatives:

Filip Granek  
PRESIDENT OF THE MANAGEMENT BOARD
