

## Sale of Delta Printing System equipment to the Department of Engineering at University of Cambridge in UK

The Management Board of XTPL S.A. [“**Issuer**”, “**Company**”, “**XTPL**”] announces that on 3 February 2025, the Company confirmed an order placed by the Department of Engineering [“**Department**”], University of Cambridge in the United Kingdom [“**Customer**”] for the delivery of a Delta Printing System [“**DPS**”] device. The Company will deliver and install the indicated device in the first quarter of 2025.

The Department of Engineering, University of Cambridge is one of the world’s leading research institutions. The DPS device will be used for research and development projects in the field of sensors and other microelectronics applications.

The order was secured with the support of the UK distributor. Revenues generated from the current device order will have a positive impact on XTPL S.A.’s financial results achieved in 2025.

The Issuer’s Management Board considered the sale of the DPS device to be confidential information, as its realization may have a significant impact on the Issuer’s future revenue situation, the popularization of the Company’s technological solutions, as well as the prospect of investors’ perception of the Issuer. The order, which is the beginning of cooperation with such a prestigious client, not only strengthens XTPL’s position in the market, but also opens up new opportunities for growth.

For the reasons described above, the information provided in this current report, in the opinion of the Issuer’s Management Board, meets the criteria for confidential information within the meaning of Article 7 (1) of MAR.
