

Sale of Delta Printing System to the Hellenic Mediterranean University (HMU) in Greece

The Management Board of XTPL S.A. [“**Issuer**”, “**Company**”, “**XTPL**”] announces that on 2nd December 2025, the Company confirmed an order placed by Vector Technologies [“**Partner**”] for the delivery of a Delta Printing System [“**DPS**”] device.

Vector Technologies is a distribution partner of the Company in Greece [CR 37/2024 of July 2, 2024]. The order is the result of a tender developed by Hellenic Mediterranean University (HMU) in Crete, Greece [“**Client**”].

The DPS device will be used at HMU for research and development projects in the field of thin-film electronics, including photovoltaics, sensors and memristors. The development using the DPS will be led by the Nanomaterials for Emerging Devices (Nano@HMU) group, which is a research unit within the Institute of Emerging Technologies of the HMU.

Revenue from the execution of the DPS order will have a positive impact on the financial results of XTPL S.A. in 2025.

The Issuer's Management Board has classified the sale of the DPS device as inside information, as its implementation may have a significant impact on the Issuer's future revenue situation, the dissemination of the Company's technological solutions, and the perception of the Issuer by investors.

For the reasons outlined above, the information disclosed in this current report, in the opinion of the Issuer's Management Board, meets the criteria of inside information as defined in Article 7(1) of MAR.
